Education

Vellore Institute of Technology

B.Tech. in Computer Science and Engineering (Data Science)

Jul. 2024 – Present

Vellore, India

Indian Institute of Technology Madras

B.S. in Data Science and Applications

Jun. 2024 – Present

Remote

Experience

KalkiNi

Frontend Web Development Intern

Dec. 2024 – Mar. 2025

Vellore, India

- Built 15+ reusable React/TypeScript UI components with Tailwind CSS for production apps.
- Implemented application workflows and integrated secure payment functionality for checkout.

BBN Music

Digital Engagement & Junior Developer

Jun. 2023 – Mar. 2025

Remote

- Developed 10+ frontend features for an artist community platform, contributing to a 15% increase in user engagement.
- Improved page performance and integrated advertising modules for monetization.

Projects

VCAP: Capstone & Course Project Platform | *Next.js, Go, FastAPI, PostgreSQL, Redis, Kubernetes, ArgoCD* **Mar. 2026 – Present**

- Lead frontend development and deployments for a project-management platform used across B.Tech and M.Tech courses.
- Build application workflows with React, TanStack Query, and Zustand; contribute to FastAPI and Go services for role-based access and multi-round grading.
- Own Kubernetes infrastructure, GitOps deployments with ArgoCD, and event-driven autoscaling using KEDA.
- Contribute to automated document generation with LaTeX-based backend workers.

Kargo: Kubernetes Deployment Platform | *Kubernetes, Go, Docker*

May 2025 – Oct. 2025

- Built and maintained a Kubernetes-based platform for deploying Dockerized applications through an AI-assisted setup workflow.
- Designed backend APIs, authentication, and multi-tenant project management for application deployments.
- Built CI/CD pipelines automating container builds, image publishing, and rolling deployments.

Papers: Exam Paper Distribution Platform | *Next.js, TypeScript, PostgreSQL, Cloud Infrastructure*

Apr. 2025 – Sep. 2026

- Maintained a production platform distributing VIT examination papers to **134K+ users** with **3.3M+ page views**.
- Shipped features, diagnosed and resolved reliability issues, and optimized content delivery and application performance.

Technical Skills

Languages: Go, Python, TypeScript, Java, SQL

Frameworks: React, Next.js, FastAPI, Tailwind CSS

Databases: PostgreSQL, MongoDB, Redis

Infra: Docker, Kubernetes, KEDA, ArgoCD, GitHub Actions, Linux, CI/CD

Leadership / Extracurricular

CodeChef-VIT

Feb. 2025 – Sep. 2026

Projects Lead & Core Committee Member

Vellore, India

- Led project development and set technical direction across the chapter's software initiatives as Projects Lead.
- Built DevSoc '26 (landing, portal, and backend); led frontend and backend for Clueminati '26 and CookOff 11; contributed to CookOff 10 frontend.
- Built internal engineering tools and infrastructure for recruitment and events, including a GitHub org manager and internal portal.

GDG on Campus VIT

Apr. 2025 – Present

Inner Core Member

Vellore, India

- Built Kargo, the chapter's recruitment portal, and The Memory Book, a map-based travel-memory platform, as a technical contributor.

Achievements

- Contributor to Microsoft PowerToys.
- Hacktoberfest 2025 Super Contributor.
